Subject bios for Dr. John Kalnas and Dr. John Parker  
:  
Fax to:

---

Dr. John Kalnas, MD is a consultant for Occupational and Environmental Medicine in Denver, Colorado. His scope of expertise also extends to preventive medicine and industrial hygiene and air pollution control. He has extensive experience in the practice of occupational and environmental medicine in senior positions at pharmaceutical and petrochemical companies in the United States and Canada and in the regulatory, enforcement and advisory functions of a government occupational and safety agency. Dr. Kalnas holds certifications with the American Board of Preventive Medicine in Occupational Medicine, the Canadian Board of Occupational Medicine, the American Board of Independent Medical Examiners, and the Medical Review Officer Certification Council.

(Note: Dr. Kalnas has agreed to participate in the medical panel with Dr. Black and Pat Cohan. I will probably be the facilitator for that session.)  
(I'll get you a better bio on Dr. Parker, but this tells you a little about him and where he fits in the program)

Dr. John Parker, MD has expertise in environmental and occupational medicine, specifically related to lung disease. Dr. Parker is the consultant for the quality assurance effort in examining the chest x-rays for the Libby Medical Testing Program. (He will be assisting Dr. Jeff Lybarger in his presentation at the LCEHP Conference.) He has published extensively in the definitive evaluation of chest x-rays and computer assisted tomography in the management of cases of Asbestos, Asbestosis and Cancer, and numerous other lung diseases.
